

Deep Creek Community

Groundwater Contaminants and Your Health

Presentation and Public Availability Session

When: Thursday, August 24, 2006. 5:00 to 8:00 PM

Where: Spokane Regional Health District Auditorium
1101 West College Avenue
Spokane, WA 99201

Why: Provide Deep Creek community members involved with the Euclid Road Groundwater Contamination study an opportunity to get additional health information about contaminated drinking water and discuss health concerns with health professionals.

What: Health professionals will be available for one-on-one discussions from 5:00 to 6:00pm. A presentation about general health information will follow with a question and answer session from 6:00 to 7:00. One-on-one discussions with health professionals can resume from 7:00 to 8:00.

The availability sessions (one-on-one discussions) are where community members can discuss specific health issues and share information about the site privately with health professionals. This invitation is extended to your physician if you would like to have them attend.
